

About Port Blakely Communities

Integrity, quality, innovation, and stewardship are the words that best describe the character and mission of Port Blakely Communities. Using smart-growth principles, Port Blakely creates residential and mixed-use urban villages that feel like small towns and embrace environmental stewardship. Port Blakely Communities prides itself on working with neighbors, regulators and elected officials to create these pedestrian-scaled neighborhoods, designed and planned to reduce traffic congestion, encourage interaction among neighbors, preserve wildlife habitat, and make the best use of the land.

Comprised of homes inspired by timeless, traditional architecture, yet enhanced by the latest in modern convenience, Port Blakely's communities have become benchmarks of resource-sensitive design innovation in the Pacific Northwest.

Founded in the late 1980s, Port Blakely Communities is one of three companies that comprise Port Blakely Companies, which also includes Blakely Pacific, Ltd. and Port Blakely Tree Farms, founded in 1864. With a 150-year legacy, each company shares common values, including a long-term, sustainable perspective that guides all decisions, products, and services of all three.

Begun more than a century ago, Port Blakely Companies' commitment to the environment continues to define its character and culture.
